

## The Benefits of Experience

AMT offers a clear commitment to providing customers with the best quality touch screen components, controllers and drivers.

As a top provider in the field, AMT is able to offer customers the most comprehensive array of available technology, manufactured only with the best materials and exacting standards of quality assurance.

In addition to our industry-leading manufacturing and service capability, AMT provides all our customers with the benefits of superior design and solution development expertise.

With near a decade of industry experience, AMT is eminently qualified to meet every user need, in any application or environment.

Serving customers around the world, in a wide scope of manufacturing areas, AMT guarantees effective touch panel interface functionality in the most demanding and exacting situations. By supplying components constructed of only top-quality materials, with a superior selection of options, AMT products span multiple applications. Whether in industrial or end-user deployment, AMT provides reliable, whole-solution support for touch panel needs in a variety of environments.
